GST kitty grows 10 per cent in March to INR1.96 lakh cr second-highest ever

#Article #IndirectTax #Gross #GST #revenue #domestictransaction

Abhishek Jain

Partner and National Head - Indirect Tax, KPMG in India

Gross Goods and Services Tax (GST) collection grew 9.9 per cent in March to over INR1.96 lakh crore – the second-highest mop-up ever, government data showed on Tuesday.

GST revenue from domestic transactions rose 8.8 per cent to INR1.49 lakh crore, while revenue from imported goods was higher 13.56 per cent to INR46,919 crore.

The gross collection includes Central GST mop-up of INR38,145 crore, State GST collection of INR49,891 crore and Integrated GST (IGST) of INR95,853 crore. Cess collection during March stood at INR12,253 crore.

Total refunds during March rose 41 per cent to INR19,615 crore.

After adjusting refunds, net GST revenue stood at over INR1.76 lakh crore in March 2025, a 7.3 per cent growth over the year-ago period.

Role:

UI Designer

Timeline:

3 months (with multiple iterations)

Platform:

Public Mobile App (Android & iOS)

Highlights:

• Designed a public-facing mobile app to make complex tax content accessible and engaging.

• Followed KPMG’s global brand guidelines while maintaining full creative control over UI layout and microinteractions.

• Created a visually rich and modern mobile experience across articles, preferences, search, events, and bookmarks.

• Integrated PDF reader, global bookmarking, and topic-based content customisation.

• Received appreciation from KPMG stakeholders and end users for visual polish and ease of use.

Project Context

KPMG Tax Navigator is a public mobile application designed to help professionals explore curated tax articles, insights, and event updates. The client required a modern interface that maintains brand consistency while improving content discoverability, preference-based curation, and cross-section engagement.

My Role

Sole UI Designer responsible for creating high-fidelity screens (Adobe XD), microinteraction flows, and visual consistency across the application while working closely with KPMG’s internal team.

Key Problems Identified

- Text-heavy tax content lacked visual engagement
- No personalisation and unintuitive bookmarking/search behaviours
- Weak visual alignment with KPMG’s global branding in early builds

Design Process

- Understood KPMG's content taxonomy and screen-level requirements
- Audited visual inconsistencies and built a strong visual hierarchy
- Designed polished UI with brand-aligned visuals and microinteractions
- Provided dev-ready assets and aided smooth implementation

UX Highlights

- Delivered an elegant UI to simplify complex tax content
- Designed modular, card-based layouts for articles, events, and media
- Integrated bookmarking, preferences, and PDF reading across sections

✓ Outcome

- Positive reception from KPMG’s design and content teams
- Boosted engagement in article bookmarking and event interactions
- Appreciated for clean visuals and intuitive screen transitions

KPMG Tax Navigator App — Access the Live App
