Profile

Lead Enterprise Product Designer with 11+ years of experience architecting B2B SaaS platforms, data-dense dashboards, and cross-platform workflows. I specialise in untangling complex business logic across audit, tax, compliance, and operational domains to create structured, highly usable enterprise products.

Rather than designing isolated interfaces, I focus on consolidating fragmented legacy workflows into unified systems that operations teams can rely on to make faster decisions.

Backed by hands-on front-end awareness (HTML/CSS), I bridge UX strategy and implementation realities, ensuring solutions remain both user-centred and technically feasible to ship.

Professional Experience

Aria Technologies Private Limited | Pune, India | Feb 2015 – Present

Lead UI/UX Designer | 2021 – Present

Senior UI/UX Designer | 2018 – 2021

UI/UX Designer | 2015 – 2018

- Led and mentored a cross-functional team of 7 professionals, taking ownership of design quality, technical delivery, performance evaluations, and hiring.
- Led end-to-end UX strategies for a portfolio of B2B SaaS platforms, standardizing workflows across audit, compliance, and workforce management domains.
- **KPMG India (Tax Navigator, Insights Edge, Internal Apps, Innovation Experience):** Delivered scalable enterprise portals for tax operations, cybersecurity, and internal governance, translating dense regulatory requirements into clear, scannable interfaces.
- **Raymond Limited (Audit Portal & Freelancer App):** Led UX for an enterprise audit portal, designing the role-specific workflows that track compliance tasks from initial assignment to final manager approval.
- Established reusable interaction patterns and component standards across enterprise products, improving design consistency and supporting efficient front-end implementation.

Selected UX Case Studies

- **OpsBridge Platform:** A cross-platform exception management ecosystem connecting field technicians with operations managers.
- **AuditIQ Dashboard:** Designed an enterprise platform for managing audits, tracking control performance, and improving visibility across 70+ enterprise controls.
- **KPMG Tax Navigator:** Designed a mobile-first tax platform that simplified access to tax content across services, sectors, and regulatory topics.
- **MindMeld App Concept:** Conceptual mobile app designed to help users track moods, reflect on daily experiences, and build healthier routines.
- **Nomad Notes Website:** Responsive web platform showcasing modular layout systems, visual hierarchy, and cross-device editorial scaling.

Earlier Experience

Technical Animator & Rigging Artist

Digitales Studios | Mumbai, India | 2013 – 2015

Visual Media Solutions Pvt. Ltd. | Chandigarh, India | 2010 – 2013

Applied technical problem-solving across character rigging and animation workflows, building a strong foundation in systems thinking.
